

ALEX STACK

Minneapolis, MN • (612) 719-1995 • alex_stack012@live.com

SUMMARY

Frontend-focused Software Engineer with 3+ years of experience building scalable, accessible, and responsive applications. Strong proficiency in Angular (7–15), React, TypeScript, JavaScript, and API-driven development. Experienced in creating reusable UI systems, improving performance, writing maintainable code, and contributing to full-stack development with Node, Python, and SQL. Known for being a fast learner, strong collaborator, and adaptive engineer who can work across the stack.

EXPERIENCE

Mid-Level Software Engineer – Brooksource / Centene (08/2023 – 08/2025)

- Developed and enhanced enterprise Angular applications using Angular 13–15, TypeScript, and Angular Material.
- Built reusable components, services, and pipes to improve maintainability and scalability.
- Improved a suite of 6,000+ unit tests by removing unused tests and reducing runtime by ~40%.
- Maintained and enhanced event-driven backend workflows using Flowable, XML, and Python. - Supported REST API integrations and contributed to debugging across multiple layers.
- Worked in Agile teams with Jira, GitLab, and cross-functional collaboration.

Software Engineer – Doran Jones Inc. (05/2022 – 08/2023)

- Built and maintained Angular applications (v7, v13) using TypeScript, Angular Material, and Nx.
- Implemented UI features for secure validation workflows and role-based interactions.
- Contributed to backend development in Java/Spring and SQL.
- Improved component consistency and performance across the UI.
- Enhanced monorepo build performance through Nx optimization.

Full Stack MERN Developer (Intern) – Outspoke (02/2022 – 05/2022)

- Built responsive UI with React and Material UI. - Developed reusable components for improved UI consistency.
- Performed QA testing across environments, ensuring accessibility and responsiveness.
- Assisted backend development with Node/Express and MongoDB.

SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, Python, Java

Frameworks: Angular (7–15), React, Next.js, Express, Spring Boot, Nx, Material UI, Angular Material, Vue.js

Tools: Git, GitHub, GitLab, Jira, Jest, Postman, Linux/CLI, VS Code, IntelliJ, Figma, npm

Databases: MySQL, PostgreSQL, MongoDB

Practices: REST APIs, Responsive UI, Accessibility (ARIA/WCAG), CI/CD, Unit/Integration Testing, Monorepos, Agile/Scrum

EDUCATION

Coding Dojo – Software Development Certificate (07/2021 – 09/2021) Full-stack training in MERN, Java/Spring Boot, and Python/Flask.

Lakeville South High School (09/2007-06/2010) – Diploma, Graduated early to enlist in the U.S. Army
