

ALEX STACK

Minneapolis, MN | (612) 719-1995 | alex_stack012@live.com

Portfolio: alexstackcodes.com | GitHub: github.com/alexstack012 | LinkedIn: linkedin.com/in/alex-stack

SUMMARY

Frontend-focused Software Engineer with 3+ years of experience building scalable, responsive, and accessible web applications using Angular, React, TypeScript, JavaScript, HTML, CSS, and REST APIs. Experienced in component-driven architecture, reusable UI systems, frontend testing, API integration, performance optimization, and Agile development. Strong background in enterprise Angular applications with additional full-stack exposure using Node.js, Python, Java/Spring, SQL, and MongoDB. Comfortable working across the stack, debugging complex issues, and delivering maintainable user-facing software.

EXPERIENCE

Brooksource / Centene — Mid-Level Software Engineer

Remote | Aug 2023 – Aug 2025

- Developed and enhanced enterprise Angular applications using Angular 13–15, TypeScript, Angular Material, and reusable component patterns.
- Built and maintained components, services, pipes, and API-driven UI workflows to improve scalability, consistency, and maintainability across the application.
- Improved a large frontend test suite of 6,000+ unit tests by removing duplicate and unused tests, reducing total runtime by approximately 40%.
- Integrated REST APIs and supported debugging across frontend and backend layers to resolve data flow, UI, and workflow issues.
- Maintained and enhanced event-driven backend workflows using Flowable, XML, and Python scripting.
- Collaborated with product owners, designers, QA, and backend engineers in Agile teams using Jira, GitLab, Figma, Zoom, and Microsoft Teams.
- Contributed to accessibility, responsive design, and performance-focused UI improvements in enterprise healthcare applications.

Doran Jones Inc. — Software Engineer

Remote / Tampa, FL | May 2022 – Aug 2023

- Built and maintained enterprise Angular applications using Angular 7, Angular 13, TypeScript, Angular Material, and Nx monorepo architecture.
- Developed secure UI workflows, validation features, and role-based user interactions for a Fortune 50 client.
- Created reusable frontend components to improve UI consistency, reduce duplication, and support scalable feature development.
- Supported backend integration work using Java/Spring, SQL, and REST API-driven application workflows.
- Improved frontend organization and build reliability within an Nx monorepo environment.
- Participated in Agile ceremonies, code reviews, debugging sessions, and cross-functional collaboration with engineering teams.

Outspoke — Full Stack MERN Developer Intern
Remote | Feb 2022 – May 2022

- Built responsive React user interfaces using JavaScript, Material UI, HTML, and CSS.
- Developed reusable UI components to improve consistency and reduce repeated frontend code.
- Assisted with backend development using Node.js, Express, and MongoDB.
- Performed QA testing across browsers and devices to improve responsiveness, usability, and accessibility.
- Collaborated with developers and designers using GitHub, Figma, and Jira.

PROJECTS & PUBLIC CODE

Northstar Workforce Dashboard — Angular SaaS Dashboard
GitHub: github.com/alexstack012/northstar-dashboard

- Built a production-style Angular dashboard simulating a multi-tenant workforce management platform.
- Implemented feature-based routing, authentication flow, role-based route guards, reusable constants, and scalable folder architecture.
- Modeled users, tenants, jobs, and candidates with TypeScript interfaces and db.json mock data.
- Added security-conscious password hash generation utilities to simulate backend password handling for demo authentication.
- Designed the project to demonstrate enterprise Angular architecture, API-driven UI, reusable components, and maintainable frontend patterns.

Personal Portfolio — React / TypeScript SPA
Live: alexstackcodes.com

- Designed, built, optimized, and deployed a personal portfolio site using React, TypeScript, responsive UI design, and modern frontend tooling.
- Converted image assets from PNG to WebP to reduce bundle size and improve load performance.
- Deployed the site through Cloudflare Workers with a custom domain and production-ready routing.
- Built the portfolio to showcase frontend projects, professional experience, and freelance web development availability.

Freelance Frontend Project — AG Inspire
Live: aginspire.org

- Coordinated directly with the business owner to gather requirements, define scope, and deliver a custom business website.
- Built a mobile-friendly Angular v15 single-page application using Angular Material, custom components, TypeScript, HTML, and CSS.
- Deployed the completed site through the client's hosting provider, InMotion Hosting.
- Delivered a responsive, maintainable frontend solution aligned with the client's business goals.

ADDITIONAL EXPERIENCE

U.S. Army Reserve — 68J Medical Logistics Specialist
Fort Snelling, MN | 2009 – 2017

- **Managed medical logistics and inventory readiness for a Combat Support Hospital.**
- **Used DoD logistics systems including DCAM and DMLSS to support supply chain operations.**
- **Built strong leadership, accountability, problem-solving, and operational planning skills.**

SKILLS

Languages: TypeScript, JavaScript ES6+, HTML5, CSS3, SASS, Python, Java

Frontend: Angular 7–15, React, Next.js, Angular Material, Material UI, RxJS, Responsive Design, Accessibility, SPA Architecture

Backend & APIs: REST APIs, Node.js, Express, Java/Spring Boot, Python, JSON, XML, Flowable

Testing: Jest, Unit Testing, Component Testing, QA Testing, Test Optimization

Databases: MySQL, PostgreSQL, MongoDB, MongoDB Atlas

Tools: Git, GitHub, GitLab, Jira, Postman, VS Code, IntelliJ, Figma, Nx, Cloudflare Workers, Vite

Practices: Agile/Scrum, API Integration, Component Libraries, Role-Based Access, CI/CD, Cross-Browser Development, Performance Optimization

EDUCATION

Coding Dojo – Software Development Certificate (07/2021 – 09/2021) Full-stack training in MERN, Java/Spring Boot, and Python/Flask.

Lakeville South High School (09/2007-06/2010) – Diploma, Graduated early to enlist in the U.S. Army
